## **MVP**

- See and choose from restaurants available for delivery.
- Select specific food items from said restaurant.
- Purchase food and provide order confirmation

## **User stories**

- “As someone with short lunch breaks, I want to have food arrive with minimal input on my part, so that I can better enjoy the limited time I have.”
- “As a non-tech native, I want to have a streamlined service, so that I can easily understand what step in a process I’m at.”
- “As a user, I want to know what options are available to me, so that I can choose options that I’ll enjoy.”
